Sub: Uploading of Post Award Details on Infracon Portal.

INFRACON had been created as a National Database for Consultancy firms & Key Personnel engaged in the Infrastructure Sector. INFRACON had been made mandatory vide MORTH office order RW-NH-35075/1/2010-S&R (R) dated 28.10.2015 for procurement of National Highway Consultancies. About 410 consultancy firms and 7380 Technical professionals have registered on the portal as on date. More than 1500 tenders got uploaded and were processed using the data available on INFRACON as on date. Meanwhile it has been observed that many of the already engaged key personnel get proposed for new works before completing their present assignment which leads to delay in finalization of the contracts as such key personnel were often required to be replaced and possibilities of them being used full time concurrently for various projects.

2. To streamline the procurement process, a Post Award Data Entry Module has been created to store the information about the Key Personnel being deployed on the ongoing projects so that such Key Personnel are not available full time for other bids till the completion of their present assignment.

3. The Post Award Module has the ability to store the copy of LoA, Date of Commencement of the Assignment, Duration of Assignment and Key Personnel- wise information like Infracon ID, Position held, Occupancy i.e. Full Time/Part Time etc. under the present assignment. The Operational Procedure for entering the data entry in this deployment module is comprehensively elucidated and attached as Annexure-I.

Contd.....P/2.

4. In order to qualitatively improve the outputs flowing from the consultancy assignments, Ministry has decided to make it mandatory for all the Agencies working on National Highway Projects to upload the requisite information in the Post Award Module available on Infracon Portal within 15 days of the issue of the LoA.

5. This issues with approval of the Competent Authority
